

## Quantum Hologram Technology (QHT) word and phrase definitions

The **MC** is the key to Quantum Hologram Technology and Quantum Hologram Science in general. Why is this important? Because if you do not understand what you are doing - or how this technology works - you can die prematurely!

*Device* - A physical construction, in this dimension, that accomplishes a manipulation of the **MC**.

*System* - A group of physical *devices* in this dimension that work together to accomplish the manipulation or control of the **MC**.

*Technology* – Physical hardware that interacts with or controls: the Mind, body or Quantum Hologram to obtain desirable results.

*Device Failure* - The failure of a *device* caused by the interaction of a being's Quantum Hologram or **Mind** or **Heart**.(1)

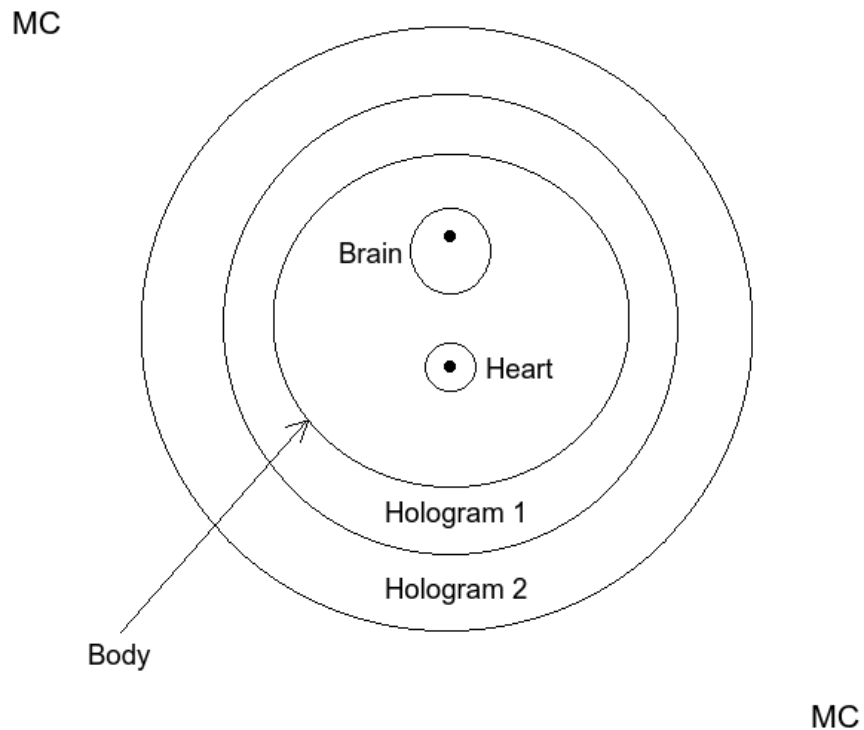

*Living Systems* - A *system* that includes components of living organisms.

*Signal transformer* - A *device* that transforms the **Signal of Life** (Chi, orgone, Prana) or the **Signals** of living beings. This can be a frequency change or a Quantum **Voltage (Vq)** change. The **Signal of Life** is "generated" by living beings. A *device* can only transform the **Signal of Life** - it cannot create it!

Hologram *Amplifier* - A *device* or *system* that increases the **Signal of Life** or the **Signals** of living beings.

**QE transformer** - A *device* that causes the **QE** to be released by the **MC – Quantum Energy** in this dimension is **Quantum Current (Iq)**.

Diagram - 1 depicts the basic Earthling Human Being (EHB) “Mind-Body-Hologram” system. The **Material Cause (MC)**, or “Ether” or “Quantum Field”, is the "quantum level" of this Universe, which is beyond the "event horizon" where "objective reality ceases to exist".

## NOTES:

(1) Heart = the human emotion analog packages provided by the **MC**. These pure energy signals are of 6 basic types. The Mind software packages allow the human being to “experience” the energy signals of emotions. For more information refer to our new book: [Your Heart](#).
